KNIFE DEPLOYMENT STRATEGIES-ICP

This Knife Deployment program is a special series of 3 programs - Standing Defense – Ground Defense – Knife Deployment; this Knife Deployment Program is designed to educate, train and prepare you in the safe and effective handling of knives that are field tested and proven for winning real world attacks. This course is designed to enhance not only the physical response but in the mental commitment, emotional trauma and the legalities that follow these violent and dangerous attacks. The edged weapon or Knives used in America is becoming more and more common then we realize and the reality of being attacked by a threat with a knife is increasing more possible. Being unable to identify, disarm and control not only the attacker but the weapon itself is vital to not only winning but your saving life! This program was developed and is conducted by US Fighting Systems and these survival tactics against knives is a system being used throughout the world. Student will be issued a certificate for **Special Weapons –Knife Deployment Strategies**.
